Once you finish institutional entries, this new frame should open indicating the College name on the left top of the frame

Side Menu

1. Constitute Academic Council [Form should open]

Process

1. Tutor (Definitions & Protocols of OBE)
2. Select Program of Study [Drop down menu]
3. Constitute Program Advisory Committee (PAC) [Form should open]
4. Constitute Board of Studies (BoS)
5. Add Representative Stakeholders [Form should open]
6. Formulate Vision, Mission, & PEOs [Form should open]. This is AI driven
7. Generate Consistency Matrix of Mission & PEOs
8. Generate Program Outcomes [Form should open]
9. Formulate Program Specific Outcomes [Form should open]. This is AI driven
10. Disseminate Vision, Mission & PEOs
11. Generate Curriculum Structure [Form should open]
12. Identify OBE aligned Courses [Form should open
13. Generate Course Outcomes (Base RBT) [Form should open]
14. Develop Curriculum [Table should open or Excel file should open on the right side to fill our table in prescribed format with the details from Excel sheet]
15. Float Feedback on Curriculum [Form should open on right side]
16. Intimate BoS & ACM
17. Finalise Curriculum

Side Menu: Constitute Academic Council (Form Requirements)

1. Name of the Member (Text field)
2. Member ID
3. Organisation (Text Field)
4. Email ID (Text field or any email field)
5. Mobile Number
6. Specialisation
7. Category (Drop Down Menu) with following items [The Principal (Chairman), Head of the Department, Senior Teachers, Governing Body Nominee, University Nominee, UGC Nominee, Member Secretary]
8. Tenure Starting Date
9. Tenure Ending Date
10. Communicate
11. LinkedIn ID
12. Save (Button)
13. Edit (Button)
14. Print PDF (Button)

Side Menu: Select Program of Study (Form Requirements)

1. Name of the Program (Drop down Menu) - Need to float from institutional details

Side Menu: Constitute Program Advisory Committee (Form Requirements)

1. Name of the Member (Text field)
2. Member ID
3. Organisation (Text Field)
4. Email ID (Text field or any email field)
5. Mobile Number
6. Specialisation
7. Category (Drop Down Menu) with following items [Senior Industry Expert (Chairman), Industry Members, Professional Body Members, Alumni, Academia, Seniors Internal Faculty, Head of the Department, Student Representative]
8. Tenure Starting Date
9. Tenure Ending Date
10. Communicate
11. LinkedIn ID
12. Save (Button)
13. Edit (Button)
14. Print PDF (Button)

Side Menu: Board of Studies (BoS) (Form Requirements)

1. Name of the Member (Text field)
2. Member ID
3. Organisation (Text Field)
4. Email ID (Text field or any email field)
5. Mobile Number
6. Specialisation
7. Category (Drop Down Menu) with following items [The Head of the Department (Chairman), Program Coordinator, Program Teachers, Academic Council Nominee, Nominee of the VC (Affiliating University), Industry/Corporate, Alumni, UGC Nominee, Member Secretary]
8. Tenure Starting Date
9. Tenure Ending Date
10. Communicate
11. LinkedIn ID
12. Save (Button)
13. Edit (Button)
14. Print PDF (Button)

Side Menu: Add Representative Stakeholders (Form Requirements)

1. Name of the Member (Text field)
2. Member ID
3. Organisation (Text Field)
4. Email ID (Text field or any email field)
5. Mobile Number
6. Specialisation
7. Category (Drop Down Menu) with following items [Academia, Industry, Corporate, Potential Employer, Professional Body. Research organisation, Alumni, Senior Students, Parents, Management]
8. Communicate
9. LinkedIn ID

10. Save (Button)
11. Edit (Button)
12. Print PDF (Button)

Side Menu: Formulate Vision, Mission, & PEOs [Form should open]. This is AI driven

(MOST IMPORTANT *AI DRIVEN*)

1. Institute Vision (Display)
2. Institute Mission (Display)
3. Select Priorities (Radio Button)

Vision

- Global Engineering Excellence, Future
- Global engineering excellence
- Future-ready engineers
- Innovation-driven education
- Technology with purpose
- Engineering for societal impact
- Internationally benchmarked
- Outcome-oriented education
- Professional engineering standards
- Globally competitive graduates
- Ethics and integrity
- Sustainable development
- Human-centric engineering
- Responsible innovation

Mission

- Outcome Based Education
- Experiential learning
- Strong theoretical foundation
- Practice-oriented curriculum
- Continuous academic improvement
- Industry-aligned curriculum
- Hands-on laboratories
- Internship-embedded learning
- Professional skill development
- Employability enhancement
- Research-led teaching
- Innovation and entrepreneurship
- Problem-based learning
- Interdisciplinary approach
- Critical thinking
- Problem solving
- Teamwork and leadership
- Effective communication
- Ethical engineering practice
- Sustainability consciousness

- Social responsibility
- Lifelong learning mindset

PEOs

3.1. Institute Vision
3.2. Institute Mission
3.3. National Priorities
3.4. Regional Priorities
3.5. Local Priorities
3.6. 21st Century Skills
3.7. Sustainable Development Goals (SDGs)
3.8. Entrepreneurship
3.9. Professional Practice
3.10. Higher Education and Growth
3.11. Leadership and Teamwork
3.12. Ethics and Society
3.13. Adaptability

4. No. of Vision Statements to generated (Drop down Menu - Upto 10)
5. No. of Mission Statements to generated (Drop down Menu - Upto 10)
6. No. of PEOs to generated (Drop down Menu - Upto 20)
7. Generate Draft Vision (Button)
8. Generate Draft Mission (Button)
9. Generate Draft PEOs (Button)
10. Initiate Internal Virtual Brainstorming

    10.1.Start Date
    10.2.End Date

11. Finalise Draft Version #1 of Vision, Mission and PEOs (Button)
12. Seek Feedback on Vision, Mission and PEOs from Stakeholders

    12.1. Start Date
    12.2. End Date
    12.3. Seek

13. Consolidate Feedback on Statement Formulation
14. Initiate Internal Virtual Brain Storming

    14.1. Start Date
    14.2. End Date
    14.3. Seek

15. Finalise Draft Version #2 (Buttun)

Side Menu: Generate Consistency Matrix of Mission & PEOs [Table should open]. This is AI driven

(Most Important) AI driven response needed to fill the following responses automatically once we click, generate Consistency Matrix. 1 for low, 2 medium, 3 high, '-' for no correlation

	Mission (1)	Mission…	Mission (n)
PEO (1)			
.			
.			
PEO (n)			

Generate Program Outcomes [Form should open]

1. Tier I (Include SDGs and WK) (Radio Button)
2. Tier II (Radio Button)

Once we click Option 1, the following images should be loaded as enclosed in WhatsApp. Following the three images, the following text shall be loaded.

Image #1

Image #2

Image #3

PO1 – Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2 – Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

PO3 – Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate societal, health, safety, cultural, and environmental considerations.

PO4 – Conduct Investigations of Complex Problems: Use research-based knowledge and research methods including design of experiments, analysis & interpretation of data, and synthesis to arrive at valid conclusions.

PO5 – Engineering Tool Usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools (including prediction and modelling) to complex engineering activities with an understanding of limitations.

PO6 – The Engineer and The World: Analyze and evaluate societal and environmental aspects while solving complex engineering problems for its impact on sustainability, economy, health, safety, legal framework, culture, and environment.

PO7 – Ethics: Apply ethical principles and commit to professional ethics, human values, diversity and inclusion; adhere to national & international laws.

PO8 – Individual and Collaborative Team Work: Function effectively as an individual, and as a member or leader in diverse teams and multidisciplinary settings, with focus on inclusivity.

PO9 – Communication: Communicate effectively on complex engineering activities with the engineering community and society at large — including comprehension and written reports, presentations, and clear instructions.

PO10 – Project Management and Finance: Demonstrate knowledge and understanding of engineering and management principles and apply these to one's own work as a member and leader in a team to manage projects in multidisciplinary environments.

PO11 – Life-Long Learning: Recognize the need for, and ability to engage in, independent and lifelong learning in the context of technological change, adaptability and continued relevance

If, Option 2 is selected

PO1 – Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2 – Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3 – Design / Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

PO4 – Conduct Investigations of Complex Problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of information to provide valid conclusions.

PO5 – Modern Tool Usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools (including prediction and modeling) to complex engineering activities, with an understanding of the limitations.

PO6 – The Engineer and Society: Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to professional engineering practice.

PO7 – Environment and Sustainability: Understand the impact of professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for, sustainable development.

PO8 – Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.

PO9 – Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10 – Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11 – Project Management and Finance: Demonstrate knowledge and understanding of engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12 – Life-Long Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Formulate Program Specific Outcomes [Form should open]. **This is AI driven**

1. Select your Lead Society (Radio Button)

A. Lead Societies (Primary discipline owners)

- American Institute of Aeronautics and Astronautics
- American Society of Agricultural and Biological Engineers
- American Society of Civil Engineers
- American Institute of Chemical Engineers
- Biomedical Engineering Society
- Institute of Electrical and Electronics Engineers
- American Society for Engineering Education
- Institute of Industrial and Systems Engineers
- American Society of Mechanical Engineers
- American Academy of Environmental Engineers and Scientists
- Society for Fire Protection Engineers
- Society for Mining, Metallurgy, and Exploration
- Society of Manufacturing Engineers
- The Minerals, Metals & Materials Society
- American Ceramic Society
- Society of Naval Architects and Marine Engineers
- American Nuclear Society
- Society of Petroleum Engineers
- CSAB
- National Society of Professional Surveyors

B. Co-Lead Societies (Joint discipline ownership)

- Institute of Electrical and Electronics Engineers
- CSAB
- International Council on Systems Engineering
- American Society of Mechanical Engineers
- American Academy of Environmental Engineers and Scientists

- American Society of Agricultural and Biological Engineers
- American Society of Civil Engineers
- SAE International

C. Cooperating Societies (Supporting / interdisciplinary role)

- Institute of Electrical and Electronics Engineers
- CSAB
- International Society of Automation
- SAE International
- American Society of Heating, Refrigerating and Air-Conditioning Engineers
- American Society of Mechanical Engineers
- American Institute of Chemical Engineers
- American Ceramic Society
- The Minerals, Metals & Materials Society
- American Society of Civil Engineers

2. No. of PSOs need to be generated (Text field)
3. Generate
4. Regenerate
